

SONDEX

Plate Heat Exchangers

Improving life through creative solutions

Did you know... Sondex Australia are one of Australia's largest Pool heat exchanger design and service companies?

We specialise in keeping your Pool heat exchanger working to its absolute optimum saving valued energy.

With Gas and Electricity costs soaring don't let a dirty or blocked heat exchanger drive your operating costs through the roof.

Call us for a no obligation health check.

Just Set and Forget

A bar chart with three bars labeled 'Gas costs', 'Electricity costs', and 'Water costs'. The bars increase in height from left to right. A large curved arrow points from the 'Gas costs' bar towards the right. To the right of the chart is a vertical temperature scale from 28.0°C to 31.5°C in 0.5°C increments. The value 29.5°C is highlighted in a larger, bold font.

28.0°C
28.5°C
29.0°C
29.5°C
30.0°C
30.5°C
31.0°C
31.5°C
